

The New Shelter Project Vision

The New Shelter Project vision is to replace the currently inadequate shelter with a state-of-the-art facility which will more fully serve our community's needs. This new shelter will enhance the welfare of animals and humans through improved facilities and increased community involvement with adoption, spaying/neutering and education.

The New Shelter Project Goal

Our goal is to provide Calaveras County with a modern animal shelter to be managed and operated by the Calaveras Humane Society (a Non-profit corporation) working in a private/public partnership with the County of Calaveras.

The New Shelter Core Group Mission Statement

The New Shelter Project Core Group's mission is to oversee, facilitate and motivate all aspects of the New Shelter Project including fund raising, financing, negotiating, planning, designing, constructing and implementing the facility.
